Help A Child Have A Career
Empowering Youth. Building Leadership.
Creating Opportunity.

HACHAC FOUNDATION
HELP A CHILD HAVE A CAREER

WHO WE ARE

HACHAC Foundation (Help A Child Have A Career) is a youth development non-profit organisation dedicated to equipping young people with the skills, confidence, values, and opportunities needed to build meaningful careers and become responsible leaders. The Foundation works with children, youth, and young adults, particularly those facing barriers such as unemployment, limited access to education, or lack of exposure to opportunities.

OUR VISION

To build a generation of empowered, skilled, and ethical young leaders who actively contribute to social, economic, and community development.

OUR MISSION

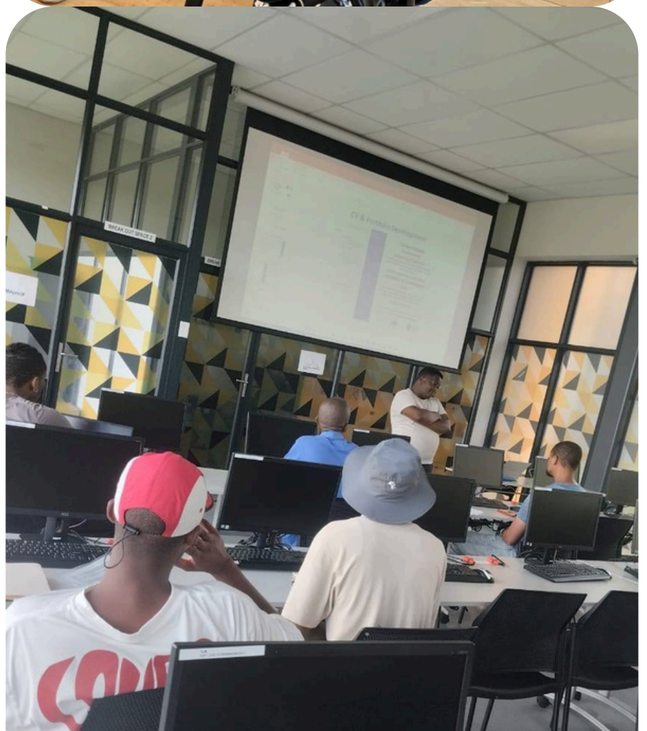

To provide holistic youth development programmes that focus on leadership, skills development, creativity, sport, literacy, technology, and civic engagement, while creating clear pathways from learning to opportunity.

WHO WE SERVE

HACHAC FOUNDATION SERVES:

Children and youth aged 6–18 through education, leadership development, creativity, sport, and learning programmes.

Youth aged 18–35 through skills development, work readiness, mentorship, civic engagement, and access to opportunities, including youth without matric and unemployed youth.

OUR APPROACH

Our approach is holistic and values-based. We combine leadership education, practical skills, mentorship, creativity, and community engagement to ensure that young people are supported academically, emotionally, socially, and professionally. Parental involvement, guidance, and partnerships are key to our model.

LEADERSHIP LEGACY ACADEMY

Leadership Legacy Academy is a Saturday leadership school for children and youth aged 6–18. The Academy focuses exclusively on leadership development, character formation, ethics, communication, critical thinking, and civic responsibility. Learners participate in leadership workshops, debates, simulations, youth parliament-style engagements, mentorship, and guided reflection. Guidance counselling and parental involvement form a core part of the programme.

HACHAC FOUNDATION

LEADERSHIP LEGACY ACADEMY

CHANGEMAKERS INITIATIVE

The Changemakers Initiative empowers youth to identify and respond to social, environmental, and community challenges. Participants engage in project-based learning, advocacy, environmental action, and leadership labs that build problem-solving, teamwork, and civic responsibility. The programme encourages young people to move from ideas to action.

CLOUD ART

Cloud Art is the Foundation's creative arts programme that nurtures artistic talent and self-expression. The programme offers structured training in painting, drawing, visual storytelling, and creative exhibitions. Cloud Art prioritises access to art education and provides platforms for young artists to showcase their work through exhibitions and community showcases.

HACHAC FOUNDATION

CLOUD ART

TECH ME AWAY

Tech Me Away introduces young people to digital literacy, coding, and innovation. The programme builds practical technology skills and supports the Foundation’s vision of a digital passport platform that allows youth to showcase skills, experiences, and readiness for internships or work opportunities.

TECH LAB

HACHAC FOUNDATION
SPORTS ACADEMY

HACHAC SPORTS ACADEMY

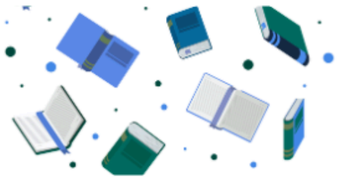

HACHAC Sports Academy uses sport as a tool for youth development, discipline, teamwork, and leadership. The Academy offers training in sports such as soccer, netball, tennis, and cricket, while promoting healthy lifestyles, resilience, sportsmanship, and personal growth.

DEBATE, CHESS & BOOK CLUB

HACHAC FOUNDATION
CHESS CLUB

HACHAC FOUNDATION
DEBATE CLUB

HACHAC FOUNDATION
BOOKCLUB

This programme focuses on intellectual development, literacy, and critical thinking. Debate builds confidence, public speaking, and respectful engagement. Chess develops strategic thinking and problem-solving. The Book Club and Youth Library promote reading, reflection, and lifelong learning through guided discussions and book lending.

LEGO LEARNING THROUGH PLAY

LEGO Learning Through Play supports early learning and development through structured play. Using LEGO-based activities, children develop problem-solving, creativity, teamwork, communication, and early leadership skills in an engaging and inclusive environment.

HACHAC FOUNDATION IMPACT STATISTICS (2025)

HACHAC Foundation continues to support youth development through leadership, entrepreneurship, literacy, digital skills, and access to opportunity across its core programmes.

Entrepreneurship, Financial Literacy & Investment Skills

The Future Investors Programme introduced young people to financial literacy, investment concepts, and entrepreneurial thinking, equipping them with foundational economic skills.

Leadership, Community & Social Impact

The Changemakers Programme engaged youth in leadership development, civic participation, and community-based action, nurturing socially conscious young leaders.

Digital Skills & Online Learning

Through the Coursera Learning Programme, youth accessed online courses aimed at building digital skills, professional development, and employability readiness.

Literacy, Reading Culture & Creativity

The Book Club Programme promoted reading, critical thinking, and a culture of learning through structured reading and discussion sessions.

Youth Awaiting Opportunities

The Youth Database supports young people awaiting internships, work placements, and learning opportunities, ensuring structured tracking and readiness for placement.
